

Important News About Your Upcoming Consultation!

Dear Patient,

I want to be the first to welcome you to our clinic! We have you scheduled for a consultation and treatment qualification evaluation with Dr. Ammon Jacobson DC.

We have included a “*PN Intake Form*” along with this letter. We ask that you take the time to answer all the questions completely and honestly to the best of your knowledge. You will need to bring this form and your medications list along with you to your scheduled appointment. The information you provide will give the doctor a more detailed understanding about the history of your condition and will assist him in determining if you are a good candidate to undergo our specialized non surgical treatment.

In order for you to gain the most benefit from this consultation you are required to bring your spouse, partner, significant other or relative along with you. Due to the sheer volume of information from Dr. Terry Smith, DC about the nature of neuropathy, we have found that patients are unable to satisfactorily relay the necessary information to friends and family to make a treatment decision. If the doctor determines that your condition can be safely and effectively treated, he will then be revealing a great deal of information to you as it relates to his findings of your condition and the details of your customized treatment plan.

As a friendly reminder, if you’ve previously undergone an MRI, CT Scan, X-rays or Nerve Conduction tests within the last three years that are associated with your current physical problem, we ask that you **bring these films and/or the medical radiology reports along with you.**

If you do not have possession of these films and reports you can simply contact the physician who ordered these tests or the radiology center where they were performed and you can request that the medical radiology reports be faxed to our office (at 719-390-8313) prior to your appointment. If you are unable to make this request from your previous doctor, we can easily assist you at the time of your appointment by making any necessary calls for you.

You are welcome to contact our office at **(719) 390-5404**. We look forward to meeting you soon!

Warmest Regards,

Dr. Ammon Jacobson DC and staff
